**Petition**

**TO The Legislative Assembly of Ontario:**

**WHEREAS** the transit fees outlined in the most recent Metrolinx report essentially constitute a series of additional taxes;

**WHEREAS** there are 600,000 people unemployed in Ontario and higher taxes discourage economic growth and job creation;

**WHEREAS** Ontarians are already paying enough taxes and it's up to the government to reign in excessive spending before it considers asking the taxpayer for more money;

**WHEREAS** scandals like eHealth, ORNGE, and the GTA power plant cancellations have eroded confidence in the government's ability to manage taxpayer money;

**THEREFORE** we the undersigned petition the Legislative Assembly of Ontario as follows:

***To prohibit any piece of legislation or regulation that levies additional fees on Ontarians to pay for transit projects in the GTA.***
